The Executive Council's Court of Claims having been checkedmate, the Executive with childish spirit gets mad and "won't play."

## THE EXECUTIVE'S REPLY.

In its communication to the Council of State regarding the Court of Claims, the Executive Council assumes the responsibility for continued inaction in the settlement of claims growing out of the Chinatown fire. With its acts discredited and condemned by the people and their representatives, the Executive assumes the attitude of preferring to do nothing rather than listen to the counsel of its superiors. The Executive has taken a position for which it can find no Hawaiian precedent except as possibly might have existed in the palmy days of the monarchy when present officials in power revolted against official arrogance; no precedent in the acts of any American President except Andrew Johnson or Grover Cleveland; no precedent in the acts of any American governor except Goebel or "Bloody" Bridles" Waite. Had the Executive's letter read "We rule this post, and allow no interference or suggestion," the sentiment of the official would have been stated with exactness. The Executive's letter simply delays the whole matter of Chinatown claims until the Legislature meets. The only good purpose the court proposition has served is to bring out the motives and methods of officials who now rule over us.

## MUGWUMP METHODS.

The morning organ of mugwumpery and "Our Party," with which is incorporated the local government, deals with the discussion of future municipal politics in Hawaii in the time honored custom for which its censurers are noted. There is just about as much similarity between the solemn platitudes voiced in the published discussion at the Social Science Club and the practical opinions of active, broadminded public men of the United States as there is between a laughing jackass and an elephant. The jackass press can be depended upon to bray or buck every time the people express a sentiment which does not coincide with the narrow minded theories evolved after much labored deliberation by the charmed circle of Hawaii which assumes a monopoly of all things temporal and eternal. It will not be a surprise to find the shades of "Our Party" and their organ instructing St. Peter on the way to run things.

The political methods of the official organ and those theoretical constituents whose every effort has been towards curtailing the power of the people are based on the principles espoused by the New York Evening Post, the Boston Transcript, Springfield Republican, Harper's Weekly until its recent reorganization, and organs of the disgruntled mugwump anti-expansion ilk throughout the United States. Unfortunately the local organ cannot rise to the dignity of journalistic effort which characterizes the newspapers it seeks to emulate.

Thanks to a wise and liberal Congress, Hawaii will have a government in which the people, not exclusively members of "Our Party," but each individual citizen will have a voice. The much despised twenty citizens of the Tim Murray club will have equal voting power with the twenty theorists of the Social Science Club. The education of the latter in popular government may be distasteful, nevertheless the community will not be less contented under the honest American rule than it has been under the minority administration which the wise men would force upon it.

## McVeigh's Report.

J. D. McVeigh, in charge of Kalihl camp during the plague and since, is at work on an exhaustive report thereon, which will cover over 30 typewritten pages. The report will be finished in about a week or ten days and presented to the President of the Board of Health and the Minister of the Interior. The financial portion of the report, it is said, will be especially interesting.

## Police and New Rifles.

The third watch went out from the police station to the Iwilei butta this forenoon to shoot with their new Springfield rifles. Jim Kupie beat all the others on the watch, making a score of 40. This is very good considering the fact that this was the first time the new guns were used.

## BOARD OF HEALTH.

(Continued from page 1.)

at last meeting allowed to be shipped to the other islands being made in Japan. Some of the stuff was reboiled here to make a pretense of Hawaiian manufacture. The president said he would attend to the matter, and it was resolved to revoke the previous order pending investigation.

Mr. Lowrey reported the expected arrival of the steamer Thyra with 900 tons of Oriental merchandise. Dr. Wood said the last report from Hongkong was that there had been no plague in that city for two weeks before date. The captain of the Rio de Janeiro reported none for three weeks. It was voted to allow the freight to be transhipped after fumigation direct from the wharf.

Adjourned at 5:05 to next regular meeting day, the following Wednesday.

It is interesting to watch the artist at work in King Bros' Hotel street window, where evidences of his skill are all ways in view. Special orders for menu cards and other art work solicited. KING BROS., 110 Hotel street.

## THE LAST CAR.

The last car of the King street line going to Waikiki and Palama pass the Anchor Saloon. The cleverest mixologists in the city are there always to put you up anything you may desire. Drop in and take a drop before you take the car. The celebrated Seattle beer is to be had here on draught. A full line of liquors, including the famous Jesse Moore Whiskey, etc., all ways on hand. Received per Warrino, Rainier Beer on draught. The Anchor Saloon is here to please its patrons.

## MONEY FOR YOU.

This will interest you if you are a Descendant of any one of thousands of foreign families whose money or estates are now in chancery.

## WE HAVE

A complete list of persons who have left money or estates to the value of

\$388,468,845.

The heirs of which are now supposed to be in the United States but whose present whereabouts are unknown. You may have money, heirlooms, or estates.

## WAITING FOR YOU.

It is not surprising that in a population so vast and among a people containing families which can trace back their ancestry for centuries, that even with families of no note the ramifications are extraordinary, the ties of relationship often varying from Peers to Peasants, though all springing from one tree. The announcement that there is nearly \$400,000,000 in money and estates going to begging sounds a little extravagant but it will appear so extraordinary when it is remembered that the amount is based on a registered alphabetical list of persons who have been advertised for all over the world since the beginning of the century, including chancery heirs, next of kin, and legacies of persons who have died intestate in Great Britain, Europe, America and the British colonies. The main sources of unclaimed monies are: unclaimed dividends on Government stocks; dormant funds in chancery; Army and Navy Prize Money; Estates of persons who have died intestate without known next-of-kin; unclaimed dividends in bankruptcy; general unclaimed dividends and unclaimed bonds and deposits. We are also prepared to furnish certificates of Births, Deaths and Marriages and official Crest or Coat of Arms of your family.

## REMEMBER

We are the only firm in America who make a specialty of establishing claims of heirs-at-law and next-of-kin.

## WE ASK NO FEE

Until claim has been settled. Enclose five a cent American stamps or ten cents in silver for mailing, wrapping, etc., and we will send you a book containing full information FREE. Write and see if you are among the lucky ones. Address

## SANITARY REGULATIONS OF THE BOARD OF HEALTH.

At a meeting of the Board of Health held the 18th day of April, 1900, the following amendments and additions were made to the Sanitary Regulations of the Board of Health adopted January 26, 1900, viz:

Section 6 was amended by adding the words "floor or floors on the ground under the" thereto, so that said section shall read as follows:

"Section 6—All houses, structures, rooms or parts thereof, in which water is used or intended to be used, in such quantity as to render the floor or floors or the ground under the floor or floors thereof damp, shall have such floor or floors made absolutely water-proof, with proper drainage into trapped leaders conveying the water away into cesspool or sewer; and the water-proofing of all such floors shall be done in a manner satisfactory to the Board of Health."

Section 8 was amended by adding the words "unless the sides and bottom are cemented and made watertight," so that said section shall read as follows:

"Section 8—No privy vault, sink or cesspool in Honolulu shall hereafter be located or constructed within fifty feet of any stream, lake, pond, well or

spring of water, unless the sides and bottom are cemented and made watertight, nor within two feet of the line of any lot; nor shall it be made more than eighteen or less than six feet deep or placed in such a position that it is not easily accessible for emptying and cleaning."

Section 19 was amended by adding the words "sinks and bath tubs" after "urinals" and the following sentence to said section: "Waste water from sinks, bath tubs, places where washing is done or water closets shall not be allowed to discharge into any stream, lake, pond or ditch," so that said section shall read:

"Section 19—All connections to cesspools or privy vaults shall be made with cast iron, lead or vitrified sewer pipe. All urinals, sinks and bath tubs shall be connected to cesspools, vaults or sewer by trapped waste pipes. Waste water from sinks, bath tubs, places where washing is done or water closets shall not be allowed to discharge into any stream, lake, pond or ditch."

And the following regulation regarding the manufacture of poi in the city of Honolulu be added and made section 30 of the Sanitary Regulations of the Board, viz:

"Section 30—Each and every building where poi is manufactured by manual labor shall be laid with cement floors, with gutters leading into a trap drain connected with a cesspool or the sewer system when completed."

Dated, April 18th, 1900, and published by order of the Board of Health.

## NEW SPRING NECKWEAR

Is coming. Could call it good and beautiful. No article of wear partakes of so many patterns and makes as does neckwear. When you see the new the old that you thought beautiful grows stale. We have just received our new spring stock and if you don't say that they are swell when you see them we will quit importing.

WE ARE NOT exactly selling our goods at auction, but we are doing the next best thing by selling them at greatly reduced prices. It is not our habit to carry goods over from one season to another, so we must sell our remnants of sizes at once, and at such prices that you will save money by buying of us. These goods must sell even if we incur a war in doing so. Boys' and Men's Clothing, Underwear and Men's Furnishings. We mean business. Call and have a look.

# PACIFIC HEIGHTS.

+++++

## Via Maxima

Kaulani Drive aptly termed, the Via Maxima or Grand Boulevard, and in itself an artistic piece of engineering—affords easy access to all points, as also scenic and marine views of exquisite grandeur at every turn.

## Electric Railway.

Contracts have been let for material, and the work of construction, equipping and installation placed in the hands of a competent electrical engineer to be fully completed by June 1st. Having an independent power plant we are prepared to furnish electric power for lighting, heating and other purposes, to our home builders at most reasonable rates.

## As Promised.

Our reservoirs are now completed and water mains laid so as to supply each lot. Permits for making water connections will be granted on application.

An inspection of the attractive homes now building, or the names of purchasers of lots, will convince anyone that PACIFIC HEIGHTS is the choicest and most select of all the residence sites of Honolulu.
